Subject: [External] Dominion Energy Proposal to Injure the Solar Industry and it's Customers in S.C.

Please do not allow Dominion Energy to line the pockets of it's stockholders by profiting exponentially through extra fees to be charged the customers who wish to have solar energy as part of their electricity needs. This is a blatant attempt to ruin the solar energy industry as well as increase the effects of climate change through stifling development of green energies. It also will cut out needed jobs in the state solar industry.

This is a brazen attempt to use monopolistic power against start-up companies. Surely you can stop this unprofessional and unethical endeavor by Dominion Energy.

Thank you.
